
AUTHOMIX

CUBOS DE RODA

O cubo de roda é a peça responsável por transmitir a rotação gerada pela junta homocinética sem riscos de atrito, levando assim ao livre movimento das rodas. Ele também realiza o suporte do disco de freio, local onde os parafusos das rodas são fixados.

O cubo de roda Authomix é fabricado nos critérios da ISO 9001, com aço forjado e modelagem milimétrica, garantindo a qualidade que o cliente precisa.
